## **New CTK House System**

- We have implemented a House System. This has provided our school an opportunity to create smaller communities and families within the larger community where they can make stronger bonds and connections.
- One of the main strengths of the House System is giving students of all ages the advantage to work together, creating a truly cohesive environment and ensuring that age is not a barrier to friendship and collaboration. It has also provided opportunities to develop leadership skills that arise from the patterns established by the House System. This also provides each student with another adult in the building to connect with.

## **Organized Teacher/Student Mentoring System**

- Teachers interact regularly and share their teaching practices-reflecting and refining, sharing stories, and problem-solving together.
- Mentors build trusting relationships that allow them to teach, lead, and advise their mentees.
- New faculty members and their mentors meet frequently with Ms. Reynoso each month.

## **Catholicity Goal for Current Accreditation Cycle**

- This cycle we have incorporated the Beatitudes and Works of Mercy into our students' daily lives here at school.
- This encourages our students to put their faith into action.
- Through paper chains displayed in front of the office, students are able to see their progress.
